Saving to Taxpayers Argued As Reason For Reapportionment

Work handled by the 46 townships of the county is not fairly apportioned under the present arrangement, and changes that could be made along this line could also effect a saving of \$100,000 annually for the county's taxpayers, the board of supervisors was told late last week in a report by the county bureau of efficiency.

Lomita township, with a 1930 population of 13,302, showed a total expenditure per capita of \$1.98. Total number of cases handled was 225. Average per capita expenditure was 68 cents and average number of cases for each justice was 576.

This township, with four constables and deputies, was credited with 697 investigations, or 174 for each man. Average was 176.

Every township in the county is treated in the report, the preliminary figures showing the personnel, expenditures per capita, total cases heard by the justices, work of the constables and special attention given to the unequal distribution of the work.

Township areas range from one one-hundredth of a square mile to 507.7 square miles, the report showed. Township populations vary from three persons in Franklin township to 113,123 in Pasadena township. Total personnel employed for 1932-33 was 247, and total expenditures as \$552,271. Per capita costs varied from 24 cents for each person in South Pasadena township to \$61 for each of the three persons in Franklin township, an "island" north of Beverly Hills.

ment will be compelled to require the penalty fee for all late comers, Bevans said.

Branch offices are maintained by the department in all the principal cities of the state. But for those who cannot make a trip to such places Bevans points out that they may meet the requirements of the law simply by forwarding their certificates of registration and the amount of the fee by mail to Sacramento.

The registrar called attention to the fact that it is unlawful to operate a motor vehicle after January 15 on the highways if an application has not been made for new plates for such vehicle.

Moreover, as soon as the legal time limit has expired the department is receiving mail applications at the rate of several thousand daily.

Great Naval Flight to Honolulu

Above photo, diagram depicts the course six United States navy seaplanes will take from San Francisco Bay on their non-stop flight over 2000 miles of water to Honolulu. Six navy boats will be stationed at 300-mile intervals across the Pacific as shown above to act in emergency.

County Relief To Be Extended Only To Needy

Persons from this district who are storming the offices of the county charities department to "get on the county," thinking that it might enhance their possibilities of getting positions with the CWA federal employment bureau, are waiting their time, it was pointed out today by Earl J. Jensen, superintendent.

While 1229 new cases were opened last week by the charities department in this and other sections of the county, there were 818 applications for aid that were refused after investigation had revealed that the applicants were not in need.

The order of the Civil Works Administration is that no person on county rolls be given a CWA work order unless that person was receiving county aid prior to October 26," the superintendent stated. "Getting on the county lists now will help no one secure a CWA job, even if the quota is increased.

According to figures, there are still 20,000 cases on county rolls, 60,000 of which are employable. This number is expected to be reduced substantially during the next few days as more CWA workers are removed from county rolls when a checkup shows that they have received enough pay to be self-supporting.

"It should be understood," the superintendent said, "that we cannot extend the relief to any but the needy. It costs several dollars to investigate the status of an applicant for aid. I earnestly request persons who are not actually in need not to apply for county aid as a mere stepping stone to a CWA job."

A year ago it was estimated that the cost of opening a case was \$16. At that rate, it cost \$11,452 to investigate unworthy cases last week that were turned down.

Civil Service Examinations In U. S. Service

The United States civil service commission will accept applications until January 22, 1934, to fill a vacancy in the position of chief statistician under the bureau of labor statistics, department of labor, Washington, D. C.

The entrance salary is \$5600 a year, less a deduction of not to exceed 15 per cent as a measure of economy and a retirement deduction of 3 1/2 per cent.

Other examinations will be given for senior toxicologist, \$4600 to \$5400 a year; toxicologist, \$3800 to \$4600 a year; associate toxicologist, \$3200 to \$3800 a year; assistant toxicologist, \$2600 to \$3200 a year. At present there is a vacancy in the position of assistant toxicologist in the bureau of chemistry and soils department of agriculture, with headquarters in San Francisco, California.

Specialists in tobacco grading, \$3800 to \$4600 a year. Associate specialist in tobacco grading, \$3200 to \$3800 a year; assistant specialist in tobacco grading, \$2600 to \$3200 a year, bureau of agricultural economics, department of agriculture.

Full information may be obtained from the secretary of the United States civil service board of examiners, at the post office or customhouse in this city.

OLDEST BONES HEAL

—BERDEEN, Wash. (U.P.)—Broken bones for aged persons seldom heal well, but A. D. ("Dad") Randolph, 81, claims the record for fractures. He has had eight major broken bones in the last 20 years, all of which healed despite his advanced age.

Keeping Up With Torrance High

At the last meeting of the World Friendship Club a constitution, which has been wanted for a long time, was presented and adopted. As a whole the constitution was acceptable. However, a few changes were suggested by members of the club.

It was decided that a doll be given to the daughter of Mr. Wooley, a faculty member. Mr. Wooley's young daughter has been ill in the hospital with pneumonia. The doll was dressed by Margaret Condon.

The senior A's gave a dance in the school gymnasium, Friday, December 15. This was one of the four evening dances allowed the school by the board of education. The purpose of the dance was to raise funds for graduation. Music was furnished by the school orchestra.

The Madrigals sang before their largest audience on December 21. They presented a program of Christmas and sacred music at the Teachers' Institute, held in the Bible Institute auditorium in Los Angeles.

The success of the program was proved by the fact that Mrs. Eischen received several invitations to sing at various musical events in the future. One of the most outstanding invitations was to sing over KFL.

They accepted this invitation and presented a 15-minute radio program at 4:30, January 5. The Madrigals have attracted widespread attention this year and have earned a reputation as one of the best high school a cappella choruses.

The art appreciation class recently visited the home of the Torrance librarian, Mrs. Isabel Henderson. She showed them a collection of handwork, gathered in all parts of the world, which included hand-hammered brass, wood carving, embroidery and temple gongs.

At the last meeting of the G. A. A. officers for the forthcoming term were elected. The new officers are: Margaret Kibbe, president; Ella Levy, vice president; Dorothy Jensen, secretary-treasurer; Edith Stevens, reporter. Basketball and speedball practice was set for January 18.

Miss Katherine Klein, girls' athletic instructor, who was married during Christmas vacation, has left school. Her place will be taken by Miss Bent.

A number of students were entertained by a rodeo on the athletic field, Friday, January 5. Montie Montana, cowboy and trick rider, presented the entertainment. Trick roping was the feature of the rodeo.

Modes in Manners Club members spent their club time for this month taking a simple standardized test of 50 questions on etiquette. These were then corrected and discussed. Most of the girls missed only one or two.

Nine Examinations For County Posts Will Be Ordered

Examination dates for nine new examinations to fill county positions are expected to be ordered by the county civil service commission at its next meeting.

Two of the positions are those of director and assistant director of the newly-created labor coordinating bureau.

The others are for deputy constable of Dominguez township, deputy constable of Montebello township, two elevators, a clerk, cashier in the tax department and assistant tax distribution clerk, also in the tax office. The latter two are promotional examinations.

Sixty-four persons are eligible and are expected to report Monday to take the examination for the post of county public administrator. The position pays \$5000 a year, and the examination will last four days.

Captains Plane

Lieut. H. J. McRoberts, pilot and navigator, captain of the United States navy seaplane 10-P-2, on the flight of six planes from San Francisco to Honolulu.

Local Firm Has Highway Contract

Another \$120,112 contract for state highway construction has been awarded to Busch Brothers, Torrance contracting firm, for improvements in Ventura county, between Ventura and Mussel Shoals. It was announced today.

The improvement is 1.5 miles long and the newly-graded roadway is to be paved with asphaltic concrete. Installation of storm drain, drainage structures, guard rail, property fences, gates, rip-rapping and gully work is included in the contract. Bids were opened December 4.

Second Installment of Taxes Becomes Due On January 20

But one week remains before the second installment taxes for 1933-34 become due and payable, taxpayers were reminded today. January 20, which this year falls upon a Saturday, is the date upon which second half taxes become due, according to W. O. Welch, county tax collector.

Torrance Man Gets Credit For Daring Rescue at Hermosa

The following article is reprinted from the Hermosa Beach Review, of December 29:

"Leaping unhesitatingly into a pounding surf at the foot of Tenth street at 5 o'clock last Saturday evening, L. Christenson, 23-year-old C. W. A. worker, rescued an unidentified man who had become exhausted after swimming through the breaker line.

"Christenson, noticing a man, apparently intoxicated, enter the surf, remained behind other members of the crew who, with their foreman, George Dixon, were working near the pier. When the man, after swimming about 500 feet out, became exhausted, the C. W. A. worker tossed off his coat and shoes and went to the rescue.

"Friends of the rescued man arrived on the scene and after aiding in reviving him, took him away without revealing his identity, or theirs.

"Christenson, who lives at 1823 Plaza Del Amo, Torrance, would be a credit to any crew of professional lifeguards, those who witnessed the daring rescue, maintain."

Taxpayers will have until April 20 or three months from the due date, to make their second installment payments. After April 20 a penalty of 3 per cent will be added. This is 2 per cent lower than the penalty in previous years, and is an amendment of the last state legislature. At the same time penalty on delinquent first installment and personal property taxes was reduced from 10 to 8 per cent.

In addition to the 3 per cent penalty on delinquent second half taxes, 50 cents will be added for the cost of advertising, it is explained in the legislative amendment.

Sometime this week the tax collector's office is scheduled to turn over to the county auditor the last of the receipts contained in letters containing money orders, bank drafts and certified checks. Final distribution of the first installment taxes to the 87 offices for which the county collects taxes, is slated to be made by the county auditor on January 27.

With the tabulation of the total receipts within the next few days, the percentage collected will be carefully figured and compared with collections of a year ago.
